What's new at Merkland Tank?

We have some exciting updates to share on recent projects, equipment, people and services - read on to learn more and do please get in touch to find out how we can help with your next project...

RECENT PROJECTS

With silent season shutdowns underway, we're supporting a number of our valued distillery customers with a range of services, including vital cleaning of silos, pot ale tanks, feed tanks and concentrate tanks, plus the cleaning of boilers, cooling towers and interceptors. This essential period of planned maintenance prevents the build-up of unwanted residue resulting from the distillation process, and allows for vital inspections, maintenance and repairs to take place.

OUR TEAM IS GROWING...AGAIN!

Over recent months, we've announced additions to our Office, Management and Operatives teams across both our Glasgow and Rosyth depots. Having won a number of cleaning, maintenance and installation projects across the UK at the start of this year, we're delighted to have also now recruited an additional three Driver/Operatives to support our growing pipeline!

SPOTLIGHT ON... MARINE SERVICES

Merkland Tank provide a range of vessel tank cleaning and waste removal services for the marine sector. This includes the removal of all ship bulk liquid waste (Black Water, Grey Water, Bilge, Sullage and Ballast), and confined space tank cleaning for Ballast Tanks, Fuel Tanks, Slop Tanks, Sewage Tanks, Sludge Tanks, Water Tanks and Bilge Rooms.

We recently supported one of the UK's leading specialist marine and logistics service providers, Casper Defence, with the bulk removal of liquid waste from NATO vessels docked in Dundee.

Thanks to our experienced operatives and our specialist tanker fleet, we were able to provide an exceptional and timely service. [Read more >](#)
