## What's new at Merkland Tank?

We have some exciting updates to share on recent projects, equipment, people and services - read on to learn more and do please get in touch to find out how we can help with your next project...

## SPOTLIGHT ON...TANK CLEANING

We recently completed a programme of tank cleaning works for one of our manufacturing clients to allow for inspection and planned maintenance.

With a tight 2-day shutdown window, we deployed two teams to work concurrently to complete the project on time. The first confined space trained team worked within the Effluent Treatment Plant (ETP) to clean the tanks, weir and outfall using our high-performance Müller Recycler. The second team worked within the Production area to safely clean the alkaline and chemical tanks using our powerful Amphitec BV V-Force Vacuum Tanker.

Merkland's Business Development Manager, Stuart Chalmers said, "I was really impressed with how well our teams integrated with the site operatives and other contractors. The equipment we deployed allowed us to showcase our experience, adaptability and dedication to deliver for our valued customer."

## ANYTIME RAPID RESPONSE SERVICE

Even with good planning, there may be times when an unforeseen situation will arise. Fortunately, Merkland Tank provide both planned and emergency response tank services across the UK.

Our team were pleased to recently provide a rapid response service to one of our distillery clients, who needed our help to transfer almost 500 tonnes of grain between two jumbo silos that feed into multiple distilleries. Using the skills of our confined space trained team, alongside the heavy duty suction capabilities of our CycloVac Vacuum Tanker, the job was completed in a timeframe that exceeded our customers' expectations and allowed them to continue operations. A fantastic effort from all involved!

## KEEPING THE WHEELS TURNING...

We often spotlight achievements and successes of our operations team, but what about the other key staff members who quietly keep the wheels turning behind the scenes and help make Merkland the success it is today?

Introducing...Tricia Aitken and Jane Wilson who work in our Finance/Admin department and have been with the business for 6 and 2 years respectively! Tricia and Jane are the first point of contact for general phone enquiries and site visitors, take an active role in our sales invoicing process, and offer invaluable administrative support to all departments within the company.

Of course, we had to ask them what they loved about working at Merkland Tank...Tricia enjoys the day-to-day variety and working with a great team (goes without saying!), while number-crunching Jane particularly likes the finance side and thrives when working to deadlines. Well done ladies, and many thanks for your hard work in the background!

## UPCOMING EVENTS...

Meet the Merkland Tank team as we're exhibiting at the following upcoming industry events:

- > The Tank Storage Conference & Exhibition (Stand 57) - 19 September, Coventry
- > Manufacturing & Supply Chain Conference & Exhibition (Stand B36) - 23/24 October, Glasgow
